***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Rico Hernandez on September 1, 2006.

The application has been amended as follows:

- Claim 1, at the end of the claim: the following phrase was inserted: ", and wherein a saturation magnetic field of the high-magnetostriction layer is larger than that of the magnetic recording layer";
- Claim 5 was cancelled;
- Claim 9, at the end of the claim: the following phrase was inserted: ", and wherein a saturation magnetic field of the high-magnetostriction layer is larger than that of the magnetic recording layer"; and
- Claim 14 was cancelled.

***Reasons for Allowance***

3. The present claims are deemed allowable over the references of record since the references of record fail to disclose or render obvious the combined limitations of the high-magnetostriction layer.

While the Examiner maintains that there is sound basis that the prior art of record inherently meets the limitation regarding the magnetostriction constant limitations of the "high-magnetostriction layer", the Examiner deems that there is insufficient specificity to anticipate or render obvious the combined limitations in the magnetostriction constant and the saturation magnetic field. The Examiner notes that optimization of one would not necessarily lead to optimization of the other, and as such, the Examiner deems that the prior art neither anticipates, nor renders obvious, controlling the properties of a "high-magnetostriction layer" meeting the claimed structural limitations, to meet both claimed property limitations.

Regarding claims 18 and 19, these claims are allowable for the reasons of record presented in Paragraph 13 of the Office Action mailed March 27, 2006.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
